GREELEY POLICE DEPARTMENT

- The preceding assigned section-level responsibility is not offered to preclude the participation of organizational members throughout the department; rather, the intent is to affix a level of mandatory participation.
- When departmental budgetary appropriations do not offset accrued encumbrances, fund transfers will be made by the Support Services Division Captain, at the direction of the Chief of Police. During quarterly budget reviews, all departmental programs/accounts will be audited to determine if a request for supplemental or emergency appropriations or fund transfers are appropriate. The affected Division Commander(s) will be notified prior to the transfer of funds by the Support Services Division Captain.
- In the event of emergency circumstances requiring additional appropriations, a written request will be completed and submitted to the City Manager by the Chief of Police. The request will describe the emergency, note the impact, and provide justification for additional monies or the transfer of funds. Immediate emergency expenditures may be authorized by the Chief of Police or Division Commander with concurrent oral notification to the City Manager by the Chief or Acting chief with a written request to follow.
- Support Services Division will prepare a monthly written report to the Chief of Police.
 - In order to maintain position control in relation to budget authorizations, the report will present:
 - The number and type of each position authorized in the Department's budget;
 - The location of each authorized position within the agency's organizational structure;
 - Position status information, whether filled or vacant, for each authorized position in the agency; and
 - Any overhires indicating funding source and City authorization.
 - A financial status report will be included in the report and will contain:
 - The initial appropriation for each program account;
 - The balance at the commencement of the reporting period;
