

GREELEY POLICE DEPARTMENT

General Order 368.00

Reviewed: 03/19

368.00 TESTING

- Certain departmental training programs will require competency testing of the employee upon completion of the training program. For these designated programs, pre-tests will be administered prior to the instruction.
  - The programs requiring testing will be so designated by the Chief of Police, his staff, and/or certification requirements for the training.
  - The employee will be required to complete the required testing with 70% of the answers correct. The employee will be notified of any failure to do so through the Chain of Command and it will be documented in the personnel file. Some testing may require a more stringent percentage score, depending on the nature of the training program. If this condition exists, the employee will be notified at the start of the training.
  - The testing will be designed to measure those performance objectives identified in the lesson plan.
  - The actual test to be administered will be approved by the Support Services Deputy Chief.
